KIRTI RAJ

Back-end Development Engineer at @Tata consultancy services
@Tcs Ignite
Cuttack, Odisha, India

Experience

Tata Consultancy Services

11 months

Back-end Development Engineer

February 2026 - Present (6 months)

Chennai

- Developing and integrating BBPS (Bharat Bill Payment System) APIs for end-to-end bill payment processing including fetch bill, pay bill, and transaction status workflows as per NPCI standards
- Building scalable RESTful backend services to onboard multi-category billers (electricity, water, gas, telecom, DTH, etc.) and managing seamless communication between Agent Institutions and Customer Operating Units
- Implementing secure payment transaction flows with proper request/response validation, retry mechanisms, timeout handling, and failover strategies for high-availability systems
- Handling transaction reconciliation, settlement processing, and audit trail management while ensuring compliance with RBI and NPCI guidelines for payment data security
- Collaborating with third-party billers and payment aggregators for **API onboarding, certification testing, and real-time payment status tracking with automated user notification systems
